

Hydrogène Québec : The network that propels your ambitions and builds Quebec's energy future

OUR STRATEGIC DIRECTIONS FOR 2024-2026

All of our initiatives are guided by three main directions, which form the foundation of our actions.

POSITIONING AND PROMOTING

Establish *Hydrogène Québec* as the industry benchmark and the preferred point of contact between the government, businesses, and society. Raise awareness of hydrogen and bioenergies as pillars of decarbonization in Quebec, Canada, and around the world by promoting our expertise and attracting investment partners.

MOBILIZATING THE QUEBEC INDUSTRY

Identify opportunities and challenges, promote the adoption of technologies, and accelerate our members' projects to create a competitive, inclusive, and forward-looking industry.

STRUCTURING AND SUSTAINING THE ORGANIZATION

Strengthen governance and provide valuable services to maximize benefits for our members.

ABOUT US

Founded in 2022, **Hydrogène Québec** is an independent association that brings together and promotes the hydrogen and bioenergy ecosystem in Quebec.

Our mission is to **accelerate the emergence of Quebec's hydrogen and bioenergy sectors and raise awareness of their strategic role in achieving decarbonization goals.**

ABOUT OUR MEMBERS

Our members now include producers, distributors, users, service and technology providers, researchers, and innovators. Together, we are building a strong and inclusive industry that promises a bright future for Quebec's energy sector.

WHY BECOME A MEMBER?

Joining *Hydrogène Québec* offers:

- **Gain access to an influential network** of researchers, industrialists, decision-makers, scientists, and innovators.
- **A strong voice with governments** to position yourself at the heart of strategic decisions on energy and decarbonization.
- **Participate in unique networking and partnership opportunities** with figures from across the industry, governments, research centers, and communities.
- **Access new markets** and collaborate with Quebec and Canadian trade representatives to open doors internationally.
- **Participate in trade missions and high-level events:** trade shows, conferences, and major industry events (in Quebec, Canada, and internationally).
- **Accelerate your projects** thanks to a mobilized ecosystem and tangible benefits.
- **Contribute to the deployment of technology showcases** that propel your expertise onto national and international markets.
- **Access exclusive studies, reports, and data** to better guide your business decisions.
- **Take advantage of preferential rates and exclusive activities**, such as conferences, technical visits and webinars.
- **Opportunities to increase your visibility** among strategic players in the sector (booths, events, trade shows, publications, social networks, newsletters).

WHAT WE HAVE BUILT TOGETHER

In just two years, *Hydrogène Québec* has established itself as a key player in the sector:

- Organization of the “*Propulsons l’hydrogène*” event in Charlevoix on August 22, 2023, which aimed to highlight the success of the world’s first train powered by green hydrogen.
- Organized signature events: *Hydrogène Québec Days* in 2024 and 2025.
- Collaborated in hosting international events such as *Hyports 2025* and *Hyvolution Canada 2025* (October 1-2, 2025).
- Participated in international missions and strategic meetings with foreign delegations.
- Submission of briefs and active participation in provincial and federal public consultations.
- Establishment of strategic partnerships and memoranda of understanding signed with *France Hydrogène* and *Task Force Hydrogène*.
- Creation of a vast, dynamic networking platform connecting experts, companies, and decision-makers.

Becoming a member of *Hydrogène Québec* means positioning yourself as a leader in the energy transition, contributing collectively to the success of this strategic industry, and benefiting from its social, economic, and environmental impacts.
